## PROMOTING ACCESS TO HEALTHCARE

Cecil Transit is introducing a new, same-day service pilot program for transportation to medical appointments, PATH.

This service is available for all Cecil County residents living and traveling to healthcare appointments within the service zone shown on the back of this page. Riders must call Cecil Transit to be registered for the program. Once you are added, you will be able to schedule your rides via the Cecil Transit app or by calling in your request to the transit office. The price of the ride is \$2 as long as the destination is an approved location.

Currently there are several approved locations such as Union Hospital or the Principio Health Center, but more locations can be added with prior notice (2 days). Additionally, the service is planned to eventually connect parts of Havre de Grace in Harford County.

**Call 410-996-5295, option #2 to register today!**
